The Tharian Clans were formerly nomadic horsemen but since the conquest of Eastgate they settled on great estates become known as the horselords. They have extended their control over much of this region of the continent. They will fight for clan and honor at the least excuse. Only the authority of the Overlord keeps war from breaking out among the clans. Even then vendettas and duels are not uncommon. A Tharian most prized possessions are his horse and his riding gear. They take great pride in their mounts and will endeavor to give their horses the finest care and the best gear.
